LARRISSON

Larrisson Menke, 1967b:29. Type species: *Sericophorus abnormis* R. Turner, 1914, by original designation and monotypy.

Revisions: Menke, 1979b; Pulawski, 2012.

1. *abnormis* (R. Turner)

Sericophorus abnormis R. Turner, 1914c:352, ♂. Holotype: ♂, Western Australia: Yallingup (BMNH). – **As *Larrisson abnormis***: nec Menke, 1967:29 (= *Larrisson rieki*); nec Bohart and Menke, 1976:fig. 83E, 86B, 87B, 88C-D, 90F (= *Larrisson rieki*); Menke, 1979b:461 (in revision of *Larrisson*); Cardale, 1985:255 (in catalog of Australian Sphecidae); Radović, 1985:65 (sting apparatus analyzed); Pulawski, 2012:73 (Australia: additional collecting localities), 78, 80 (in key to *Larrissa* and *Larrisson*).

2. *armatus* Pulawski

Larrisson armatus Pulawski, 2012:42, ♀, ♂. Holotype: ♀, Australia: New South Wales: Kinchega National Park at 32°22.8'S 142°23.6'E (AMS). – Pulawski, 2012:78, 79 (in key to *Larrissa* and *Larrisson*).

3. *azyx* Menke

As *Larrisson* sp.: Evans and Matthews, 1973:204 (prey of *Bembix moma*), corrected to *Larrisson azyx* by Menke, 1979b:461.

Larrisson azyx Menke, 1979b:460, ♂. Holotype: ♂, Australia: Western Australia: Kununurra (ANIC). – Cardale, 1985:6 (in catalog of Australian Sphecidae); Pulawski, 2012:73 (Australia: additional collecting localities), 77 (in key to *Larrissa* and *Larrisson*).

4. *carinatus* Pulawski

Larrisson carinatus Pulawski, 2012:45, ♂. Holotype: ♂, Australia: Western Australia: 54 km northeast of Kalbarri at 27°15'20"S 114°31'13"E (WAMP). – Pulawski, 2012:80 (in key to *Larrissa* and *Larrisson*).

5. *latifrons* Pulawski

Larrisson latifrons Pulawski, 2012:47, ♀. Holotype: ♀, Australia: Queensland: Hann River at 15°11'S 143°52'E (ANIC). – Pulawski, 2012:78 (in key to *Larrissa* and *Larrisson*).

6. *niger* Pulawski

Larrisson niger Pulawski, 2012:49, ♀. Holotype: ♀, Australia: Western Australia: 9.5 km southeast of Banjiwarn Homestead at 27°42'S 121°37'E (WAMP). – Pulawski, 2012:78 (in key to *Larrissa* and *Larrisson*).

7. *orbitalis* Pulawski

Larrisson orbitalis Pulawski, 2012:51, ♀, ♂. Holotype: ♀, Australia: New South Wales: Springs Creek 68 km southwest of Wilcannia (ANIC). – Pulawski, 2012:78, 79 (in key to *Larrissa* and *Larrisson*).

8. *punctatus* Pulawski

Larrisson punctatus Pulawski, 2012:53, ♀. Holotype: ♀, Australia: South Australia: Calperum Station 32 km north of Renmark at 33°53'S 140°44'E (ANIC). – Pulawski, 2012:78 (in key to *Larrissa* and *Larrisson*).

9. *quintus* Pulawski

Larrisson quintus Pulawski, 2012:56, ♀, ♂. Holotype: ♀, Australia: Northern Territory: Gregory National Park: Victoria River bank near Timber Creek at 15°37.8'S 130°28.6'E (ANIC). – Pulawski, 2012:78, 79 (in key to *Larrissa* and *Larrisson*).

10. *rieki* Menke

As *Larrisson abnormis* (corrected to *Larrisson rieki* by Menke, 1979b:457): Menke, 1967:29 (generic characteristics); R. Bohart and Menke, 1976:fig. 83E, 86B, 87B, 88C-D, 90F.

Larrisson rieki Menke, 1979b:457, ♂. Holotype: ♂, Australia: Western Australia: 10 mi west of Mullewa (UCD). – Cardale, 1985:255 (in catalog of Australian Sphecidae); Pulawski, 2012:73 (Australia: additional collecting localities), 79 (in key to *Larrissa* and *Larrisson*).

11. *spinosus* Pulawski

Larrisson spinosus Pulawski, 2012:61, ♂. Holotype: ♂, Australia: Western Australia: François Peron National Park ca 10 km north-northeast of Denham at 25°50.3'S 113°33.3'E (WAMP). – Pulawski, 2012:80 (in key to *Larrissa* and *Larrisson*).

12. *sulcatus* Pulawski

Larrisson sulcatus Pulawski, 2012:63, ♂. Holotype: ♂, Australia: Northern Territory: Gregory National Park: Limestone Gorge at 16°03'01"S 130°24'07" (ANIC). – Pulawski, 2012:80 (in key to *Larrissa* and *Larrisson*).

13. *tegularis* Pulawski

Larrisson tegularis Pulawski, 2012, 65, ♀, ♂. Holotype: ♀, Australia: New South Wales: Kinchega National Park at 32°22.8'S 142°23.6'E (AMS). – Pulawski, 2012:78, 80 (in key to *Larrissa* and *Larrisson*).

14. *tibialis* Pulawski

Larrisson tibialis Pulawski, 2012:68, ♂. Holotype: ♂, Australia: South Australia: Calperum Station 31 km northwest of Renmark at 33°59'S 140°30'E (ANIC). – Pulawski, 2012:79 (in key to *Larrissa* and *Larrisson*).

15. *variegatus* Pulawski

Larrisson variegatus Pulawski, 2012:70, ♀, ♂. Holotype: ♂, South Australia: Calperum Station 14 km west-northwest of Renmark at 34°07'S 140°37'E (ANIC). – Pulawski, 2012:78, 79 (in key to *Larrissa* and *Larrisson*).

sp.

Naumann, 1993:184 (Australia: Queensland: Heathlands area in Cape York).

SPECIES DESCRIBED IN *LARRISSON* AND TRANSFERRED TO OTHER GENERA

menkei Pagliano, 1995 = *Clitemnestra*

nedymus Menke, 1979 = *Larrissa*
