POMPIOPTERUS

Pompilopterus Rasnitsyn, 1975:106. Type species: *Pompiloides ciliatus* Rasnitsyn, 1975, by original designation and monotypy. Originally treated as member of Pompilidae, also by Rasnitsyn in Darling and Sharkey, 1990:128, transferred to Angarosphecinae by Rasnitsyn, Jarzembowski, and Ross, 1998:373.

Key: Rasnitsyn, Jarzembowski, and Ross, 1998:373.

1. *ciliatus* Rasnitsyn

Pompilopterus ciliatus Rasnitsyn, 1975:106. Holotype: Russia: Buryat Republic: Baisa in upper Vitim River area (PIN). Age: Lower Cretaceous. – Rasnitsyn, Jarzembowski, and Ross, 1998:373 (in key to *Pompilopterus*).

2. *corpus* Rasnitsyn and Jarzembowski

Pompilopterus corpus Rasnitsyn and Jarzembowski in Rasnitsyn, Jarzembowski, and Ross, 1998:373. Holotype: England: Surrey: Capel: Rudgwick Brickworks (Booth Museum of Natural History, Brighton, England). Age: Lower Cretaceous: upper Weald Clay. – Rasnitsyn, Jarzembowski, and Ross, 1998:373 (in key to *Pompilopterus*).

3. ? *difficilis* Rasnitsyn and Jarzembowski

? *Pompilopterus difficilis* Rasnitsyn and Jarzembowski in Rasnitsyn, Jarzembowski, and Ross, 1998:377. Holotype: forewing, England: Dorset: Swanage (BMNH). Age: Lower Cretaceous: Lulworth Formation. – Rasnitsyn, Jarzembowski, and Ross, 1998:373 (in key to *Pompilopterus*).

4. *keymerensis* Rasnitsyn and Jarzembowski

Pompilopterus keymerensis Rasnitsyn and Jarzembowski in Rasnitsyn, Jarzembowski, and Ross, 1998:376. Holotype: forewing, England: Sussex: Burgess Hill (Booth Museum of Natural History, Brighton, England). Age: Lower Cretaceous: lower Weald Clay. – Rasnitsyn, Jarzembowski, and Ross, 1998:373 (in key to *Pompilopterus*).

5. ? *leei* Rasnitsyn and Jarzembowski

? *Pompilopterus leei* Rasnitsyn and Jarzembowski in Rasnitsyn, Jarzembowski, and Ross, 1998:377. Holotype: forewing, England: Surrey: Capel: Clockhouse Brickwork (Booth Museum of Natural History, Brighton, England). Age: Lower Cretaceous: lower Weald Clay. – Rasnitsyn, Jarzembowski, and Ross, 1998:373 (in key to *Pompilopterus*).

6. *montsecensis* Rasnitsyn

Pompilopterus montsecensis Rasnitsyn, 2000:57, ♀ [?]. Holotype: E[?], Spain: Lérida Province: La Pedrera de Méia fossil site in Montsec Range (Laboratoire de Paléontologie, MNHN). Age: Lower Cretaceous. – Rasnitsyn and Martínez-Delclòs, 2000:83 (diagnostic characters, type material).

7. ? *noguerensis* Rasnitsyn and Martínez-Delclòs

? *Pompilopterus noguerensis* Rasnitsyn and Martínez-Delclòs, 2000:85, sex not indicated. Holotype: Spain: Lérida Province: La Cabrúa fossil site in Montsec Range (Institut d'Estudis Ilerdencs, Lérida, Spain). Age: Lower Cretaceous. – Rasnitsyn and Martínez-Delclòs, 2000:88 (listed)

8. *wimbletoni* Rasnitsyn and Jarzembowski

Pompilopterus wimbletoni Rasnitsyn and Jarzembowski in Rasnitsyn, Jarzembowski, and Ross, 1998:375. Holotype: forewing, England: Dorset: Swanage (BMNH). Age: Lower Cretaceous: Lulworth Formation. – Rasnitsyn, Jarzembowski, and Ross, 1998:373 (in key to *Pompilopterus*).

9. ? *worssami* Rasnitsyn and Jarzembowski

? *Pompilopterus worssami* Rasnitsyn and Jarzembowski in Rasnitsyn, Jarzembowski, and Ross, 1998:376. Holotype: forewing, England: Surrey: Capel: Clockhouse Brickwork (Booth Museum of Natural History, Brighton, England). Age: Lower Cretaceous: lower Weald Clay. – Rasnitsyn, Jarzembowski, and Ross, 1998:373 (in key to *Pompilopterus*).
