Townes, H.

- 1973. The type of *Sphex viatica* Linnaeus (Hymenoptera, Sphecidae) – Typ *Sphex viatica* Linnaeus (Hymenoptera, Sphecidae). Polskie Pismo Entomologiczne 43:91-96. [The author thought that “the sphecid genus *Podalonia* ... should be called *Pompilus*”. However, the International Commission on Zoological Nomenclature (1945, Opinion166) designated *Pompilus pulcher* Fabricius as the type species of *Pompilus*, thus placing the genus in Pompilidae. In 1980 (Opinion 1157), the Commission ruled that the lectotype designation by van der Vecht, 1958, as a pompilid, was valid]. Available through:

Westwood, J.O.

- * 1832. [A species of *Podium* under the name *nigripes*], p. 516, p. 76 Fig. 3 in E. Griffith and others. The animal kingdom arranged in conformity with its organization by the Baron Cuvier, member of the Institute of France, &c. &c. &c. with supplementary additions to each order. Vol. 15. The class Insecta arranged by the Baron Cuvier with supplementary additions to each order by Edward Griffith, F.L.S., A.S., &c. and Edward Pidgeon, Esq. and notices on new genera and species by George Gray, Esq. Vol. 2. Whittaker, Treacher, and Co., London. 796 pp, 140 pls. [According to Evenhuis, 1997, this is a translation of Cuvier's Nouvelle édition of "Le règne animal ...". The entire work consists of 16 volumes, the insects being in volumes 14 and 16 (marked "First" and "Second").

The authorship of *Podium nigripes*, now *Dynatus nigripes*, is somewhat questionable. The second title indicates that G. Gray was the author of new genera and species. However, the Supplement on the

- Hymenoptera (pp. 389-576) was written by Griffith and Pidgeon as evidenced by the use of “we” throughout the text, and a note on p. 780 states that Gray selected new species from Children’s and Hope’s collections and described them, not that he is responsible for all new species. In addition to species described by Gray, a number of new genera and species are credited to Westwood and some to Leach. Although there is no evidence that Westwood prepared the original description or illustration, the best solution is to follow the tradition and attribute the authorship to him.
- * 1835a. Insectorum Arachnoidumque novorum decades duo. The Zoological Journal 5:440-453, p. XXII. [described *Cheilopogonus punctiger* = *Philanthus gibbosus* (Fabricius)].
